Abstract (en)

[origin: EP2148021A2] The system has a supporting profile (10) that comprises of fixing sections for fixing at a plaster supporting board. A profile (20) is designed as connection profile, and is connected with the supporting profile. The supporting profile and the profile exhibit connection sections (16, 21) that are adjusted in a successive manner. One of the connection sections and the fixing sections are designed in a groove type. The profile comprises of a perforated bar, knitted fabric strips and plaster passage openings.
