Abstract (en)

[origin: WO2008138586A1] The invention relates to an ink supply system (2) for an inkjet printer (1) having a print head arrangement (6) for at least one color, the print head arrangement (6) comprising a plurality of print heads (7) each having a plurality of nozzles and the print heads (7) being lined up to form a total print area width (10) corresponding to a multiple of a print area width (9) of a single print head (7). Each of the print heads (7) is connected via a line to an intermediate tank (12) for ink of the corresponding color, a plurality of print heads (7) being connected to a common intermediate tank (12).
