Abstract (en)  
[origin: WO2008143510A1] The invention pertains to a packaging unit (1) for eggs or similar fragile articles, said packaging unit for instance being made of moulded pulp, and comprising a bottom part (2) comprising compartments (4) matching at least partially the outer contours of the articles contained within said unit, a cover part (3) comprising a top surface (7) and substantially planar front- (8) and rear surfaces and substantially planar end surfaces (9,9'), said cover part substantially having a rectangular shape with rounded corners, wherein said cover part comprises denesting means near the end surfaces near the top surface of the cover part. The invention further pertains to such a packaging unit wherein said cover part at its corners comprises portions reflecting the shape of the articles contained within said packaging unit, a portions being formed as a part taken out of a rounded corner and a part of said end surface of said cover part.
