Abstract (en)

[origin: AU2008248219B2] A clip for mounting a fluid delivery device adjacent a wall of an enclosure is disclosed. In one embodiment, the device includes a base, a hook configured to support the base adjacent the wall, means for attaching a fluid delivery device to the base, and means for rotating the base. Additionally, a method for attaching a clip for mounting a fluid delivery device adjacent a toilet bowl is disclosed. The method includes securing a hook to a rim, engaging a tab of a base to an underside of the rim at an interface, and rotating the base in response to the interface to substantially engage the tab of the base with the underside of the rim.
