Abstract (en)
[origin: WO2008140342A1] A wood floor element (1) for the production of a wood or parquet floor, comprises: an upper layer (2) of hard wood with a surface for providing a walking surface of the wood or parquet floor, a central layer (4) of solid wood, and a lower layer (6) of an insulating material, wherein the lower layer (6) of insulating material is fixed directly to the central layer (4) and the upper layer (2) is glued directly to the central layer (4). The upper layer (2) and central layer (4) comprise wood material and the lower layer (6) comprises cork material. Wood floor element (1) comprises a groove (8) at least one edge and/or a tongue (8) at at least one edge for connection to at least one further wood floor element (1), to form a wood or parquet floor comprising a plurality of wood floor elements (1).
