Abstract (en)
[origin: WO2008130717A2] A cable management system (100) for cable management in an equipment rack (106) includes a support bracket (130, 132) having a body extending between a mounting end and a distal end. The mounting end is configured to attach to the equipment rack, and the body has a tie down slot configured to receive a cable tie down. A cable bar (134) is coupled to the distal end of the support bracket, wherein the cable bar has a tie down slot configured to receive a cable tie down.
