Abstract (en)  
[origin: EP2151264A1] The extinguisher (1) has a reservoir (2) containing a to-be-sprayed product (3) e.g. water, and a container (8) for containing an additive (9) to be mixed with the product. The container is closed by a cover (7) that is tearable under the effect of pressure difference. The cover comprises a polyethylene layer welded to the container, a polyamide layer, another polyethylene layer, and another polyamide layer in a successive manner. The container is made of high density polyethylene.
