Abstract (en)

[origin: EP2151410A1] The device has a storing unit (1), which is provided for supporting cable shape material (2). An electronic processor element (4) is provided for storing material parameters to the cable shape material provided in the storing unit. A processing unit (3) is provided for cable shape material for operating the storing unit. A reading unit (5) is arranged on a processing unit. The electronic processor element is permanently connected with the storing unit. An independent claim is included for a method for operating the device.
