Abstract (en)

[origin: WO2008141636A1] Disclosed is a method for producing a transparent object that attracts a viewer's attention. At least some of the object surface facing the viewer is illuminated by means of an illumination source that irradiates a bottom surface of the object, said bottom surface facing away from the viewer. The disclosed method is characterized in that the object is provided with a surface that is reflective in incident light.
