Abstract (en)  
[origin: WO2008135542A1] The invention relates to a modified multichannel structure, wherein the multichannel structure has at least 10, preferably at least 100, particularly preferably at least 1000, and most preferably at least 10,000 channels, and an inner coating and/or particles are brought into the channels of the multichannel structure. The invention also relates to a method for the production of the modified multichannel structure and to the use thereof.
