Abstract (en)
[origin: WO2009004596A2] This invention relates to an armour arrangement (10). The armour arrangement (10) comprises a plurality of disruption members (12) located adjacent one another, being at least partially spaced apart from one another and being angularly displaced relative to the surface. Each disruption member is arcuate in cross-section and includes three disruption bodies (14), positioned side-by- side to, such that the disruption member is in the shape of a half-parabolic curve.
