Abstract (en)
[origin: US2010147725A1] Packaging means made of plastic, in particular, for a free-flowing or pourable surfactant-containing and/or bleach-containing material, for example detergent or cleaning agent powder, comprising a base, a top and a body, wherein the packaging means has a water vapor permeability level >15 g/(m²*d) and wherein at least the body of the packaging means is covered over, in part, by a sheet-like presentation and identification means which butts against the outer surface of the packaging means and has a water vapor permeability level <15 g/(m²*d).
