Abstract (en)

[origin: CA2688457A1] The present invention relates to hydroxyfunctional binding agents having a hydroxyl number >= 180 determined according to DIN 53240 and a solubili ty parameter SP <= 10 and to clear paint compositions comprising the bind ing agent. The present invention further relates to a method for producing t he hydroxyfunctional binding agent, the use thereof for producing clear pain t coating compositions for automotive series painting, and substrates coated with the clear paint composition according to the invention.
