Abstract (en)

[origin: CA2690584A1] A photovoltaic module comprising: front (2) and back (3) sheets, each comprising inner (2a) and outer (3a) faces, a plurality of photovoltaic cells (4), placed side by side between the front (2) and back (3) sheets and each comprising an antireflection layer, and a peripheral seal (5) positioned between the front (2) and back (3) sheets, around the photovoltaic cells (4). The part of the inner face (2a) of the front sheet (2), delimited by the seal (5), is coated with a polymer film (7) having a refractive index between that of the front sheet (2) and that of the antireflection layers of the photovoltaic cells (4), said film (7) being in contact with the photovoltaic cells (4).
