Abstract (en)
[origin: WO2008058588A2] The invention relates to a multiple component synthetic resin system, to the use thereof for mounting fixing elements, to a method for the production of said system, and to other forms of embodiment mentioned in the description and based on said inventions. The multiple component synthetic resin system contains at least one finely distributed gas in at least one of the components thereof. The invention is especially applicable to the building and construction industry.
