Abstract (en)
   [origin: WO2009004266A1] The invention relates to a method for the storage of a first version of a file in a first memory space, e.g. a cell phone. The
   invention is characterised in that the method further comprises: the step of transmitting an amount of data from said first memory space to a second
   memory space, said amount being at least equal to a difference between the size of the first version of said file and the size of an available portion
   of said first memory space; the step of replacing a second version of said file by said first version; and the step of retransmitting said first amount
   from said second memory space to said first memory space.
