Abstract (en)

[origin: EP2165637A2] The dishwasher has a washing tank (1) including lateral walls, a bottom wall, an upper wall and a lower wall (3) that is provided with a sump (4). A cylindrical cleaning water filtering device (5) is partially housed inside the sump. The sump has an inlet opening (6) that is opened towards a water circulation device and arranged in a central part of a microfilter (10) of the filtering device. The sump has another inlet opening (7) that is opened towards a draining device and arranged at an exterior of the microfilter.
