Abstract (en)

[origin: EP2166190A2] The sealing profile band comprises a sealing area (17) with a profiled, sealant strip (15) made of rubber elastic material, which has the labyrinth sealing. The sealing profile band has a pressure piston-type thrust transmission torus (29), which is arranged facing the clipping units (3) for clipping, and extends in the sealant strip. The sealant strip is made of a foam rubber, particularly ethylene propylene diene monomer, ethylene-propylene terpolymer, ethylene-propylene-diene rubber or thermoplastic elastomer.
