Abstract (en)

[origin: WO2008150234A1] The main object of the invention is to provide a drawer that is possible to efficiently produce in large quantities, which is easy to assemble with as few tools and mounting means (fittings, screws, etc.) as possible, and at the same time reduce the total environmental impact of the produced drawers whilst maintaining sufficient product quality in terms of durability and visual appeal. A drawer according to an embodiment comprises a front piece (1), a left side piece (2), a right side piece (3), a back piece (4) and a bottom (5). The drawer frame comprises the two side pieces (2, 3), the front piece (1) and the back piece (4), and is joined by dovetail joints comprising dovetail protrusions and dovetail grooves.
