Abstract (en)

[origin: EP2168905A2] The industrial truck has a display- and control device, a steering device, particularly a steering wheel (3) arranged before a driver seat (2) and an actuating element (8) for a lifting device or a traction drive of the industrial truck. The actuating element is arranged laterally before or beside the driver seat. The display- and control device is arranged before the driver seat in an angle formed between an arm swinging axis to the steering device and another arm swinging axis to the operating element.
