Abstract (en)

[origin: WO2008151158A1] A digital paper-enabled system includes a spreadsheet printed on digital paper and usable with a digital writing instrument, such as a digital pen. A method of using the system includes (1) designing a digital paper-enabled spreadsheet with a spreadsheet integration module; (2) printing the designed spreadsheet to receive writing from a digital pen (3) uploading data from the digital pen to a processing system; (4) reviewing the uploaded data using a display device associated with the processing system; and (5) storing the uploaded data, which may include exporting one or more portions of the uploaded data to another display or processing system.
