Abstract (en)
[origin: EP2172606A2] The arrangement (1) has a handle (2) e.g. knob, connected with a shaft (3), which is in effective connection with a lock, in a torsionally-stiff and detach-secure manner. The shaft has a groove-like slot (11) running in a longitudinal direction (10) of the shaft. The handle includes a guide element (12) that is engaged in the slot in a final assembled condition. The shaft has a set of blind holes (15) that are arranged next to each other in the longitudinal direction. A positioning element e.g. set screw, of the handle is engaged into the blind holes.
