Abstract (en)

[origin: WO2009016203A1] This is a safety cover for covering a container (11) for holding, in particular, flowable flammable chemical products, said container being placed underneath a device containing such products, such as an electricity transformer, and the cover comprising closely spaced sloping slats (5) with spaces (9) between them giving said flowable products access to the container (11), which cover is characterized in that each slat (5) has multiple drainage slopes (15a, 15b) to encourage rapid draining of the products towards the container (11).
