Abstract (en)

[origin: CA2693607A1] The invention relates to a process for producing barium sulfate. In said process, (i) an aqueous solution containing lithium ions and sulfate ions is provided, and (ii) solid barium hydroxide is added at a temperature exceeding 50°C, (iii) the barium hydroxide being added for a period of less than 15 minutes. The invention further relates to barium sulfate that can be obtained using the method according to the invention.
