Abstract (en)  
[origin: WO2009010101A2] Display device for timepiece of the type that allows the display of information appearing with a period of one week and having control means (32, 34, 36, 38, 40, 44, 46, 49; 54, 5 56, 59) and display means (22, 26; 50). In this device the display means and the control means are designed to indicate (28), in the course of any given day, a first state corresponding to a first time period and a second state corresponding to a second time period, said periods being variable from day to day in the course of the week.
