Abstract (en)

[origin: WO2009007611A2] The invention relates to a method for the communication of a terminal (10) with a server (14), the terminal including an application and computer software capable of communicating with the server (14). The method comprises: the step of sending (42) a request (RLoc) by the application (26) to the software (34), and the step of obtaining (44) by the software (34) and from the application (26) data (DAutor) necessary for the software (34) to communicate with the server (14) so that the request can be executed.
