Abstract (en)

[origin: EP2175088A2] It comprises a manufacturing process for semi-resistant modules for residential use, equipment, industrial use, etc., which contain part of the structure, rigidity and transportation cage, enclosures, facilities and finishings suitable for industrialized processes, and a method of installation on site on prefabricated gantries, which progressively complete the structure and the finished building in both plan view and height up to the limit set by the construction program.
