Abstract (en)
[origin: EP2018857A1] The invention relates to a medical device comprising on at least a part of its surface a pharmaceutical composition. According to the invention, said pharmaceutical composition comprises at least two polypeptide antibiotics or a combination of at least one polypeptide antibiotic and at least one further antibiotic, wherein said further antibiotic is a phosphonic antibiotic or mupirocin. The invention relates further to the use of a pharmaceutical composition as an additive to a medical device.
