Abstract (en)
[origin: WO2009015431A1] The present invention provides a composition including water, a hydrocolloid and a cross-linking agent. Also provided are methods of using the composition of the present invention to insulate at least a portion of an article from an effect arising from a change in ambient temperature. Also provided are methods of using the composition of the present invention to irrigate an area of soil or other suitable agricultural medium.
