Abstract (en)  
[origin: WO2008125238A1] The invention relates to a painted, printed, and embossed deep-drawn lid, circular in the top view, made of aluminum, substantially in the form of a cylinder open on one side, wherein the imprint on the substantially flat surface has at least one contour also representing the contour of the embossment, obtainable by a sequence of the following process steps: (a) coating, particularly printing an aluminum plate with paint and/or colorant, (b) cutting the aluminum plate, (c) deep drawing, (d) embossing, (e) optionally edge rolling, wherein the steps (b), (c), (d), and optionally (e) are performed by a single tool.
