Abstract (en)
[origin: WO2009024165A1] The invention relates to an electric handheld power tool, in particular a power screwdriver, comprising a gearbox (12) and a drive shaft (32), which is driven by a drive motor and is connected to a driven shaft (44) by means of an engaging and disengaging planetary gear mechanism (14), wherein the planetary gear mechanism (14) comprises a planet carrier (24) on the driven side, wherein an end (58) of the driven shaft (44) on the drive side is led through the planet carrier (24) on the driven side and the planet carrier (24) on the driven side is radially mounted in the gearbox (12).
