Abstract (en)
[origin: WO2010025751A1] A mailing package comprising a pre-cut blank having a central portion (2), a closure flap (5) adjacent to the top side of said central portion, and a left and a right side flap (3, 4) adjacent to the left and the right sides of said central portion, respectively. The pre-cut blank has a bottom flap (9) adjacent to the bottom side of said central portion, wherein said bottom flap comprises a first fixture area (14) being arranged to be fixed to one of said side flaps (4) and a second fixture area being arranged to be fixed to the other of said side flaps (3). In between said bottom flap and said central portion, a first perforation line (12) is disposed. The bottom flap further comprises a first portion (10) being adjacent to the central portion, and a second portion (11), wherein in between said first and second portions and at a distance to the first perforation line (13), a second perforation line is disposed. The first and second portions are arranged to be folded at least partially on each other along said second perforation line and said first portion comprises said first fixture area, and said second portion comprises said second fixture area.
