Abstract (en)
[origin: EP2181847A1] The pressurizing unit has a pressurizing element having a form cylinder, a transmission cylinder, an inking attachment and a dampening device. A driving motor (18) is arranged to pressurizing element, which is driven in the form cylinder or transmission cylinder of the pressurizing element. An oscillating mass (19) is arranged to the driving motor, which is rigidly connected with the rotor of the driving motor.
