Abstract (en)

A base plate for jacks, in particular for scissors jacks, is made of sheet steel and has generally a bow tie shape with flared ends (25, 26) and a narrower neck portion (24). The base plate is at least partially being provided with raised flanges (27, 28) along the longitudinal side of the base plate (2). The base plate is further provided with at least one transverse rib (30) which extends transversely to the longitudinal extension of the base plate (2) from one raised flange (27) to the opposite raised flange (28).
