Abstract (en)

[origin: EP2182124A1] The arrangement (1) has a flushing valve e.g. diaphragm valve, including a valve body with an inflow channel (19) and an outflow channel (20). The inflow channel is attached to a supply line (2), and the outflow channel is attached to a flushing line (3) i.e. flexible pipeline. The channels extend along a common straight line and are arranged in a horizontal plane. The valve is arranged in a fitting cabinet with a front side on which an inspection opening for the valve is arranged. The front side extends in a horizontal or vertical plane.
