Abstract (en)

[origin: EP2182494A1] The warning light device has a warning light (1) having a lighting unit (2) which comprises a lighting element for an optical display of an operating state, particularly of multiple operating states. An electronic warning light-combination (6,9,11,13) is provided between two warning lights separate from two electronic control devices (32) of a technical device (30) or separate from an electronic device combination (31) for transmission of data or control signals.
