Abstract (en)
[origin: WO2009016601A2] The invention relates to a tubular actuator (1) for a home automation screen, that comprises: a stationary point (20; 220; 420) at least partially imbedded in the tube through one end thereof; and stop means (21, 11; 221, 211; 321; 421, 411) of the stationary point at least in translation relative to the tube, characterised in that the tubular actuator includes locking means (32; 232; 432) for the stop means.
