Abstract (en)

[origin: WO2009018918A2] The invention relates to a decoupling element (1) for the exhaust gas system of a motor vehicle, particularly a commercial vehicle, having an exterior bellows (2) and a flow guidance device (3) disposed inside the bellows (2). Said decoupling element is characterized in that the flow guidance device (3) comprises a plurality of flow guidance parts (3.1, 3.2) disposed substantially sequentially in the axial direction of the decoupling element (1).
