Abstract (en)

[origin: US2008315731A1] A flexible and stretchable mounting device for a fan or the like which has a shaft, a series of enlarged undulations axially arranged at one end of the shaft, and a head at one end of the shaft, the mounting device being adapted when stretched for insertion into aligned apertures on a chassis and a frame and relaxed to permit a selected undulation to hold the frame in spaced relation to the chassis. The device also includes a break away grip secured to the head for guiding the device into the apertures when stretched and which can be severed from the head when the device is arranged mounted on the chassis and frame.
