Abstract (en)  
[origin: EP2186446A1] The mattress has a mattress core and a mattress cover (1). The mattress cover consists of an upper side (2), a lower side (3), longitudinal sides (4) and transverse sides (5, 6). The upper side and one of the transverse sides are formed by a single-piece material plate (7). A closure (9) e.g. slide fastener and hook and loop fastener, runs in a region of the longitudinal sides at an edge of the upper side and runs within a region of the transverse sides at an edge of the lower side, where the transverse sides are integrally connected with the upper side.
