Abstract (en)

A mounting system for constructing glass parapets comprises: a basic body (1), which has a L-shaped cross-section with a horizontal chord adapted to be mounted through screws (5) on the parapet (26); a brace (2), which has a I-shaped cross-section and which is screwed through screws (6) on the vertical chord of the base body (1) so as to form a U-shaped recess of adequate height and width to receive a glass pane (7) of adequate thickness and strength, a rubber gasket (4) being inserted between said pane (7) and said brace (2).
