Abstract (en)
[origin: WO2009024719A1] The invention relates to a cosmetic or pharmaceutical composition that contains, in a physiologically acceptable medium, at least (i) hyaluronic acid and/or a derivative thereof and (ii) a C-glycoside derivative, wherein at least one of the constituents (i) and (ii) is in a form adapted for administration by injection. The invention also relates to the use of at least one association of hyaluronic acid or a derivative thereof with a C-glycoside for the preparation of a composition for back-filling recesses in the skin surface, and to a cosmetic treatment method for reducing aging signs or restoring the volume of the body or the face using such a composition.
