Abstract (en)

[origin: WO2009015932A1] The invention describes a hand power tool with a drive spindle (30) and an integrated tool holder (10), wherein the drive spindle (30) can be connected to the tool holder (10) in a rotationally fixed and undetachable manner, and the tool holder (10) has at least one magnet (15). The hand power tool according to the invention is characterized in that the drive spindle (30) is connectable to the tool holder (10) such that at least one first section (31) of the drive spindle (30) is permanently connectable to the tool holder (10) and at least one second section (32) of the drive spindle (30) is present which is at least as long as the first section (31).
