Abstract (en)  
A relaxation apparatus (10) includes a body-supporting unit (13) for supporting a user's body, a rocking unit (12) for rocking in at least one direction a rocking member including the body-supporting unit and a controller (24) for controlling the rocking unit to rock the rocking member. The rocking member is provided with a main power switch (42) to be turned on and off by the user's manipulation. The main power switch may be provided to the body-supporting unit of the rocking member.
