Abstract (en)

Box (1) comprising an inner space (l) for receiving a product, wherein the box is formed from several mutually folded parts and/or flaps glued to one another in a manner suitable for holder formation, and is provided with a bottom face, a top face provided opposite thereto, and wall parts provided around circumferential sides of the bottom face, wherein a first wall part (5) and a second wall part situated next thereto are fastened to each other with the aid of a fastening flap provided on the first wall part through a first folding line (10), which fastening flap (12) is fastened to the second wall part (6), wherein through a second folding line (20) an extension flap (14) is provided on the second wall part (6), wherein the first (10) and second folding (20) lines are situated substantially against each other and form a double folding line, which is configured to be substantially, that is, over at least 50% of the length thereof, single-layered. The invention further relates to a blank for such a box and an assembly of a box and an inner bag.
