Abstract (en)

[origin: EP2189413A1] The mounting arrangement has multiple bore holes (5) provided in sliding elements (2) formed according to an outer contour of telescopic shots. Each bore hole ends in an opening (6) which is arranged in a perpendicular manner. A barrel bolt (1) is inserted in the opening, where a threaded hole (7) is provided perpendicularly to bolt axis. The sliding elements are made of polyamide.
