Abstract (en)

[origin: WO2009015674A1] A refrigerated sales furniture (2) according to the invention comprises a base portion and a top portion (4) as well as a rear wall (6) and two upright stanchions (16) extending between the base portion and the top portion (4) at the left side and at the right side of the refrigerated sales furniture (2). The stanchions (16) support at least one goods display deck. The base portion comprises a bottom sheet, two lateral beams (20) supported by the bottom sheet and fixed to the respective upright stanchion (16), and an upper sheet (26) forming the upper surface of the base portion. The lateral beams (20) are arranged between the bottom sheet and the upper sheet (26), and the space between the bottom sheet and the upper sheet (26) is filled with an insulating plastics foam.
