Abstract (en)
[origin: WO2009037409A1] The invention relates to a single-layer facade coating comprising at least one polysiloxane having at least one amine function. The invention also relates to the production of said coating and to the use of same in order to improve hydrophobicity and to limit changes to facades, such as colour differences (carbonation, bleaching, crazing, different drying behaviours), biological, mineral or organic soiling and/or the proliferation of vegetation.
