Abstract (en)
The interlocking pieces have a square, rectangular, triangular and circular form; the square piece has a central hole and four engaging points, one on each side; the rectangular piece has a central hole and six engaging points; the triangular piece has a central hole and three engaging points; the circular piece has a central hole and eight or more engaging points on the circumference. The interlocking pieces, when joined together, are able to form various objects and/or toys of varying shapes and sizes.
