Abstract (en)

[origin: EP2193971A2] The car body has a wet room (2), which is supported on a bottom area (1) of the car body. The wet room has a self-supporting floor (4) and a height adjustable and fixable support (3), which is arranged between the floor of the wet cell and the bottom area of the car body. An independent claim is also included for a rail vehicle, which has wedge elements.
